

EAGLES NEST PROPERTY HOMEOWNERS ASSOCIATION

Building and Grounds Report 2021

South Entrance:

After 20 some years the signage at the entrance was updated this past year. The ENPHA Board worked with the Sign Shop in Frisco to come up with the revised lettering and logo.

This past year also included the relocation of the backflow preventer for the sprinkler system from a vault 10 ft. underground to above ground as required by the Town Of Silverthorne water department. The underground work was completed this past Fall and the above ground plumbing will be completed this Spring.

This past Fall, 400 yellow daffodils were planted by volunteers. In the last two years over 1000 daffodils were added to the entrance gardens.

Community Center:

Due to the COVID situation the Community Center was closed for the remainder of 2020. No events were held this past year. Hopefully we will be able to open the facility later this year pending COVID restrictions and guidelines.

Painting of the buildings, hand railings, and parking lot light poles was completed this past Spring.
